Agentic Operating Model

Front / Middle / Back Office role map · AI coverage by phase · Institutional hiring blueprint · PRP prompt library

PHASE 1 · 0–1 YR YOU ARE HERE

Foundation — Solopreneur + AI

JT executes front-office. AI runs 80%+ of middle & back office. Priority: revenue, mandates, first closings.

PHASE 2 · SCALE 1–3 YR

Scale — First Hires + Supervised AI

Analyst, compliance officer, EA onboard. AI transitions from "doing" to "supervising". $500M+ AUM.

PHASE 3 · INSTITUTIONAL EXIT 3–5 YR+

Institutional — Full Team + Agentic Infra

Full org chart. GP/LP fund structure. AFSL authorised. Autonomous agents with guardrails (NemoClaw/OpenClaw).

Operating Principle

"Every role exists as AI first, human second. A role is only hired when AI coverage hits a ceiling OR when regulatory substance requires it."

— JT · OPERATING DOCTRINE

Human-in-Loop Triggers

→ Fee negotiation / commercial concession

→ Counterparty sign-off / client call

→ Regulatory filing / AFSL-trigger item

→ Material risk memo / IC escalation

→ Counsel review / litigation posture

→ Board / LP reporting sign-off
