Executive Operating System V8.0

UPDATED 22 APR 2026
42 SURFACES LIVE
PHASE 1 · 70%

The complete operating surface for Ascension Capital Partners. Every function of the firm — origination, capital markets, risk, compliance, finance, people, knowledge — lives here as a live, cited instrument. 42 surfaces across 9 function blocks. This is the system JT walks through every morning and that every future hire inherits on day one.

PARTNER READ · V8.0 RELEASE

Five surfaces land with this release — each closes a gap that until today lived in a spreadsheet, a lawyer's email or JT's head. HR-01 *converts the hiring conversation from calendar-based to trigger-based.* BD-01 *turns 420 LPs into a live conversion funnel with six codified outreach cadences.* KM-01 *makes every precedent, comp and clause a cited, searchable instrument — the vault is now* the moat by FY29. FIN-01 *and* OPS-01 *close the back office: an 18-month cash forecast with Bear/Base/Bull scenarios, and a 34-vendor registry where every subscription has an owner and a replacement plan. The firm is now 70% Phase 1 complete. The remaining gap is ESG framework, marketing engine, data room infrastructure, and board governance overlay. Those ship before Fund II first close.*
