Recent Decisions

LAST 6

Aurora Energy — A$180M Senior Secured Facility Arrangement

IC Meeting #08 · Vertical: Upstream Energy · Lane: Private Credit Arranger

APPROVED
Thu 17 April 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 180M	A$ 3.4M	ARR MOB RET TL	Simon Ting + Money Penny

Rationale: Strong sponsor covenant, existing reserve coverage ratio 2.1x, priced at SONIA+425bps with 24-month tail. Risk/return profile sits well within our private credit mandate. Approved on first presentation.

Unanimous — 3 for / 0 against

Helios Solar — A$320M Infra Equity Arrangement

IC Meeting #08 · Vertical: Energy Transition · Lane: Infrastructure Equity

CONDITIONAL
Thu 17 April 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 320M	A$ 5.8M	SUC PLC EQY	Simon Ting

Rationale: Strong LP appetite signal, but IC required additional appendix with base rate sensitivity and grid-connection timeline stress test before full approval. Economics remain attractive under downside scenarios.

CONDITIONS PRECEDENT TO GREEN-LIGHT

- Appendix — base rate +100/+200bps sensitivity to LP returns (due Thu 24 Apr)
- Grid connection delay scenario — 12mo slip impact on IRR
- Confirm exclusivity on placement agency (non-negotiable)

Approved w/ conditions — 3 for / 0 against

Orion DC Platform — A$450M Placement Mandate

IC Meeting #07 · Vertical: Digital Infrastructure · Lane: Placement Agent

APPROVED
Thu 3 April 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 450M	A$ 8.1M	PLC MOB RET	Simon Ting + Money Penny

Rationale: Flagship DC opportunity in Sydney / Melbourne with tenant pre-commits of ~65%. Clean sponsor, clean jurisdiction, strong hyperscale tenant profile. Approved with note that success requires hitting 100% LP raise by June.

Unanimous — 3 for / 0 against

Vega Midstream GSA — A$140M M&A Structuring

IC Meeting #07 · Vertical: Upstream O&G · Lane: M&A Sell-Side

DEFERRED
Thu 3 April 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 140M	A$ 2.1M	SUC RET	Simon Ting

Rationale: Counterparty responsiveness has cooled since mandate conversation. Commit slip on GSA structuring indications. IC deferred pending re-scope or counterparty withdrawal decision. Review at next IC meeting.

WATCH ITEMS

- Vega counterparty re-engagement — 4 days overdue on commit
- Decision gate — proceed on reduced scope, or withdraw cleanly
- Reputational risk of continued low-conviction engagement

Deferred — Back at IC #09

Titan Critical Minerals — A$95M Senior Secured Facility

IC Meeting #06 · Vertical: Critical Minerals · Lane: Private Credit Arranger

APPROVED
Thu 20 March 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 95M	A$ 1.8M	ARR MOB EQY	Simon Ting + Money Penny

Rationale: WA-based lithium project at pre-FID stage. Strong resource base, credible offtake, supportive State Gov. Approved with Equity Earnout kicker given development risk. Critical minerals thematic alignment strong.

Unanimous — 3 for / 0 against

[Redacted Counterparty] — A$60M Sub Debt Proposal

IC Meeting #06 · Vertical: Special Situations · Lane: Private Credit

DECLINED
Thu 20 March 2026

DEAL SIZE	EXPECTED FEES	FEE SKUS	COUNSEL
A$ 60M	A$ 1.1M	ARR SUC	N/A (pre-engagement)

Rationale: Sub debt structure in distressed retail sector, sponsor pushing off-market fee terms (60% of standard) with capped success fee. Structure required cross-default acceptance against unrelated exposures. Declined on structural grounds — violates protect-economics principle. Re-engage only if sponsor accepts standard mandate letter.

Declined — Walk-away preserves optionality
