PARTNER-TO-PARTNER · ON LP OUTREACH

LPs don't commit to new GPs — they commit to **track records** *they can defend to their IC. Our job is not to pitch; it's to* **furnish the defence**. *The Engine exists to systematise that: 420 named LPs scored, tiered and sequenced by mandate fit. Each LP sits in one of six cadences — from* **Cold Intro** *(warm referral + thought leadership) to* **Allocation Close** *(DDQ, SMA terms, legal). Nothing is sent cold without a* **warm vector**, *nothing goes dark for more than* **45 days**, *and every conversation produces a* **meeting note in Notion within 24 hours**. *This is not a fundraising sprint. This is a three-year institutional relationship build — ending in Fund II soft-circle by March 2027 and first close by September 2027.*
